

Dear Valued Customer,

Did you know that most car batteries need to be replaced every 4-5 years? If your battery is in that time-frame, Interstate Batteries and Encinitas Foreign & Domestic Auto Repair are teaming up to make sure that you don't risk an unexpected battery failure.

Below is a check from Interstate Batteries made payable to Encinitas Foreign & Domestic Auto Repair. Just print it out and bring it in, and you will receive \$10 off your battery replacement.

Not sure if you need a new battery? No problem. By using the newest ED18 battery analyzer along with old-school hydrometer testing, we can give you a report on the condition of your battery... and by showing us the check below, we'll do the testing at no charge to you!

Even if you don't need a new battery right now, hang on to the check. There is no expiration date on this offer, so we'll accept it when you do need to replace your battery.

Happy Driving!

From your friends at Encinitas Foreign & Domestic Auto Repair.
